

Finest Surgical Technology Since 1954

About XPress Lock®

The modern, detachable instrument line from Ackermann is equipped with an unique quick locking mechanism, which makes the instruments' assembly and disassembly even more efficient and faster.

XPress Lock®

XPRESS LOCK INSTRUMENT LINE

How it works

KEY FEATURES

- ✓ Latest instrument system with quick-locking mechanism
- ✓ Time saving assembly and disassembly of the instrument within 2 seconds
- ✓ Innovative ratchet design for on-off-action available
 - ✓ Autoclavable
- ✓ Lengths of 330 and 450 mm
- ✓ 360° rotatable with audible and tactile feedback
- ✓ No hidden spaces to accommodate blood and debris
- ✓ 45° HF-port on the handle
- ✓ Ceramic scissors available for the use with the XPress Lock Line®

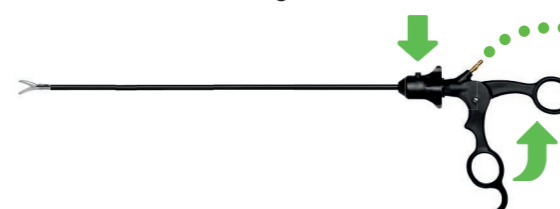

STEP

- ✓ Open the handle completely.

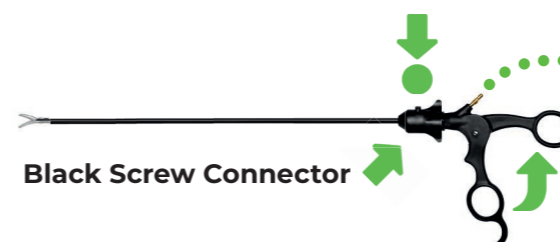

Quick Un-/Lock Knob

STEP

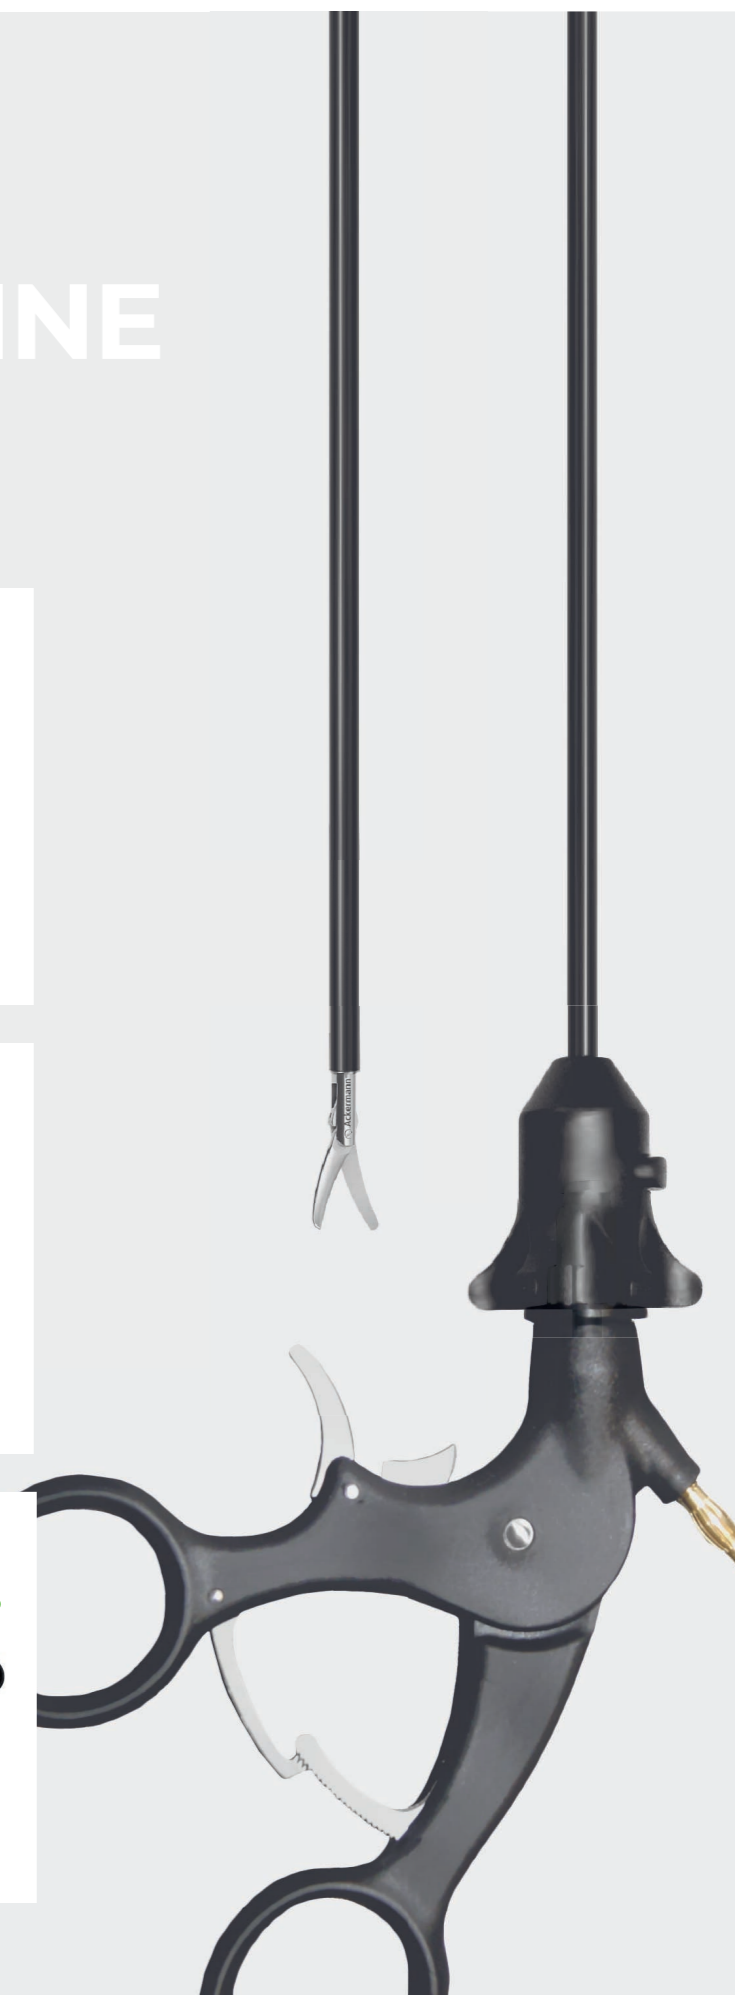

- ✓ Loosen the sheath by pressing the quick locking knob on the black screw connector.

STEP

- ✓ While holding the sheath, rotate the insert clockwise 45° until loosened.

Slide the insert from sheath.
